

PANGA MARINE

THE 18' EVO

By Panga Marine | MSRP: \$46,625

You may see the 18' Skiff from Panga Marine along US coastal and inland waters – and around the world! With the EVO we have taken an already versatile boat to a whole new plane. New generation features, fittings, and fixtures add to the engineering optimization of the main hull.

More refinement and standard equipment you want. The inspiration for the 18 EVO came from what our customers asked for in the 18 Skiff. Now we can offer it in more refined package at a very competitive price.

Some of the features most often requested by Panga Marine captains include the 11 inch walk-around gunnels (with improved rod storage!), and the larger fore deck which has two compartments with room to store 4 five gallon buckets and safety equipment plus a separate anchor locker.

The larger aft-deck has two round, insulated 12 gallon live wells and there is a removable storage bin located in the aft deck allowing for easy access to the bilges for servicing or additional storage.
