

# PANGA MARINE

## THE 23 CAPTIVA

By Panga Marine | MSRP \$81,789

*In the continuing effort to improve performance and satisfy our customers' desires, the Captiva was developed.*

*Every Panga Marine Captiva includes features to add comfort and ease of use and maintenance, including a 3 piece gunnel cap and liner, self-bailing deck, 316 stainless hardware and fasteners, all knitted hand laid fiberglass material, 100% no wood construction, core-mat for strength and improved cosmetics, powdercoating, and a transom made with ceramic pourable compound.*

*The new design gives our 22 foot hull unmatched performance in its class. Hull design changes give the boat a smoother ride and the ability to use a 200 HP motor, all while maintaining the efficiency and versatility our 23 is famous for.*

*When we are asked for a variety of options, the Captiva is perfectly suited for the task.*

*Increased power and performance led us to build a more robust hull, and as is true with all of our boats, it is 100% no-wood construction.*
